

The Beginning of a Journey.

A journey often begins with a single moment.
The moment a distant country's name captures your imagination.
The moment you picture a city you've never seen.
Or perhaps, the moment you raise a glass in your hand.

Kobe has long been a port city open to the world.
For generations, people, cultures, and ideas have crossed paths here,
creating something new with every encounter.

This city is more than a destination.
It is a crossroads where Japan meets the world.

J.W.Hart is a bar that carries on that spirit.

Spirits arriving from distant lands.
Spices that carry the aromas of faraway places.
And Japanese sake and ingredients shaped by the unique climates
and traditions of regions across the country.

When these elements meet, they create something entirely new
—a story told through a single cocktail.

Every glass we serve is more than just a drink.

It is a journey that begins in Japan.

A journey through the towns and landscapes of this country.
A journey tracing the heritage of spirits from around the world.
A journey toward cultures yet to be discovered.

And every one of those journeys begins here.

From Kobe, the port city that has always connected worlds,
every journey begins with a single glass.

WORLD PREMIUM GIN

First produced in Holland in the late 16th century, Gin began its storied history not as the popular spirit we know today but as a medicine to treat various ailments. In an effort to make it more palatable, the Dutch started to flavor it with juniper berries which had medicinal properties of its own.
